11:30 AM EST

Presenters: HMEDA Chair, Robert Boscacci & Phil Mundy, Executive Director

On January 1st, 2015 the Home Medical Dealers' Association of British Columbia (HMEDA) launched its trial equipment demo program. The goal for this program is to ensure that the provision of in-home trials is sustainable, and available to all clients who require assistance in making a decision in regards to their personal equipment needs. The deposit collected at the time of assessment is applied to the client's final purchase once their product selection is finalized.

Your CADA communication committee is extremely happy to present this Webinar and we thank Robert and Phil for their participation.

Who should attend the Webinar?

Owners, store managers, sales rep supervisors, store administrators
